*The Cuban Missile Crisis Revisited: An International Collection of Documents, from the Bay of Pigs to the Brink of Nuclear War* reproduces a comprehensive collection of records from the archives of the three key governments involved in the most dangerous confrontation of the Cold war. Declassified records from the United States, Russia and Cuba significantly advance analysis of the historical foundations of the missile crisis, the policy calculations and considerations of President John F. Kennedy and premiers Nikita Khrushchev and Fidel Castro, and the overt and covert military and paramilitary operations that combined to bring the world to the threshold of a nuclear exchange. Topics extensively covered in the documentation include the failed U.S.-led invasion at the Bay of Pigs, renewed attempts to overthrow Castro through Operation Mongoose and Operation Northwoods, U.S. military contingency planning for conflict with Cuba, naval warfare, Soviet and Cuban decision making and communications during the crisis, and the repercussions for U.S.-Soviet relations, and Soviet-Cuban relations in its aftermath. Materials were identified, obtained, assembled and indexed by the National Security Archive, a non-profit Washington D.C. based research institute and library. The microfiche collection is accompanied by a printed guide and index.
